
Mitch S. Daugherty

Nuclear Engineering and Planning Manager Naval Sea Systems Command, Norfolk Naval Shipyard

Mitch Daugherty is the Nuclear Engineering and Planning Manager and the senior civilian at Norfolk Naval Shipyard. He is responsible for all aspects of nuclear work and operations in the shipyard.

Prior to assuming his current position in 2003, he was the Radiological Control Office Director. Daugherty also headed the Nuclear Refueling Division, the Nuclear Test Engineering Division, and the Nuclear Reactor Engineering Division.

He was also the functional area implementation manager for Advanced Industrial Management and was Project Superintendent for the *USS SOUTH CAROLINA* complex, new treat upgrade, refueling overhaul.

In other Norfolk Naval Shipyard assignments he was a chief test engineer, an assistant chief test engineer and a shift test engineer. He joined the shipyard in 1980 as an assistant shift test engineer.

He received a bachelor's degree in nuclear engineering from the University of Illinois in 1980.

Mr. Daugherty is a member of the American Nuclear Society, the American Association for the advancement of Science and the Health Physics Society.
